To Whom It May Concern:

I would like to recommend Luiz Claudio Cruz for his skills and knowledge relating to the construction industry. During his time with Faithful+Gould as a Project Controls Manager, I had an opportunity to work with Luiz and learn several key skills which have been beneficial to my career as an Assistant Project Manager and Consultant.

Luiz is an experienced professional in the area of Project Controls and has worked on many complex oil and gas projects. His insight in the area of Project Controls is outstanding in many regards and has been beneficial in assessing the progress of multiple turnaround projects over the last year. Luiz also possesses advanced skills in macro coding and software's such as Primavera P6, Microsoft Project, and Microsoft Excel.

I believe that Luiz would be an ideal candidate for any senior level position relating to Project Controls, Project Planning, or Project Management. His experience, dedication, and creativity will continue to guide him towards success in his career. I highly recommend Luiz for consideration of employment.

Sincerely,

Christopher Khan
Assistant Project Manager
Faithful+Gould, Inc.
